

**STANDARD PURCHASED POWER  
ADJUSTMENT CLAUSE**

**AVAILABILITY**

This clause is applicable to all electric rate schedules.

**PURCHASED POWER ADJUSTMENT**

The cost per KWH for all energy will be adjusted upward or downward for changes in fuel and purchased power costs including transmission above or below the base amount of \$.1000 per KWH. When the total cost of fuel, purchased power, and transmission varies above or below the above base cost a charge or credit per KWH will be applied to all energy sold such that the cost or credit will be recovered or returned over time.
